

COME ON! MAKE YOUR OWN PARTY STICKERS

This sheet features fun party figures like confetti hats, party flags, silly glasses, and funny speech bubbles that you can color in and transform into your own stickers!

Print the page on sticker paper, so you can easily stick the figures wherever you want!

Cut out the figures neatly (ask for help if this is difficult) and then stick them to notebooks, cards, streamers, or gifts.

Use your party stickers for a birthday party, to brighten something up, or just... because it's fun!

Tip: Add extra decorations like googly eyes, glitter glue, or small pom-poms for an even more special result!
